

Sectional slurry tanks

U channels 2000mm long to suit 2400mm and 3000mm slats. Easy to installed with a half check joint and hydrophilic sealer strip. A first and last down with end wall complete the tank, the widths compatible with Solway slats.

Design Features

- Tank sections come in 2.4 or 3 meter widths
- Tank depth is 2.5 meters
- Quick and easy to install with a mobile crane
- Sealant strips supplied, comply with SEPA requirements
- Half check joint system to form a secure joint
- Designed to current BS EN standard
- Incorporated lifting socket for installation with a designed and certificated lifting device
- Solway slats and passage slabs offer a full package for your tank

Uses for Modular slurry stores

- Underground slurry store within your shed project

Tank size	Length	Width	Height	Volume M3
2.4 m tank	30 m	2.4 m	2.500 m	180 M3
3 m tank	30 m	3 m	2.500 m	225 M3

Design & Quality Assurance provisions

- Design certificates available for your building warrants
- Concrete design certificates supplied
- Concrete strength cube reports available upon request
- SEPA approved system
- Method statement for erection available
